NOURISH® PL

PLLA - HA

MADE IN ITALY

Advanced Biostimulation for Natural Regeneration

NOURISH® PL is a progressive biostimulant protocol that combines Poly-L-Lactic Acid (PLLA) and Hyaluronic Acid (HA) to stimulate collagen synthesis, restore hydration and improve skin quality for long-lasting, natural results.

SKIN REGENERATION
Stimulates fibroblasts activity and promotes new collagen synthesis.

INTENSE HYDRATION
Hyaluronic Acid restores hydration and improves skin elasticity and turgidity.

ANTIOXIDANT PROTECTION
Protects cells from oxidative stress and supports collagen preservation.

IMPROVES SKIN QUALITY
Enhances firmness, smoothness, radiance and overall texture.

LONG-LASTING RESULTS
Progressive and natural improvement over time.

MECHANISM OF ACTION
A Synergistic & Physiological Approach

The combination of PLLA and HA works in synergy to regenerate, hydrate and protect the skin from within.

PLLA
Stimulates collagen production and improves skin structure.

+

HA
Restores hydration, improves elasticity and enhances skin volume.

MAIN INDICATIONS

- Skin laxity and loss of firmness
- Fine lines and wrinkles
- Dehydrated and dull skin
- Uneven skin tone and texture
- Photo-aging and oxidative stress
- Post-procedure and skin recovery
- General improvement of skin quality and appearance

HIGH SAFETY PROFILE
Biocompatible and well-tolerated formula

PROGRESSIVE RESULTS
Visible improvement over 4–12 weeks

NATURAL & HARMONIOUS
Results without artificial alterations

MADE IN ITALY
Italian quality and innovation
